Isabella County Adult Day Program Announcement

To our Adult Day Program participants, families and partnering agencies;

Established in 1999, the Isabella County Adult Day Program has provided respite care and assistance for seniors and cognitively impaired adults residing in Isabella County and the central Michigan area. As part of Isabella County Medical Care Facility (ICMCF), the Adult Day Program management team and ICMCF are honored to have provided this program for more than 20 years.

In March of 2020, the Adult Day Program temporarily closed its doors to participants due to COVID-19 restrictions. With our continued reevaluation of the program, COVID-19 restrictions and current resource needs of ICMCF's residents, it has been decided to permanently close the program.

All of us at the Adult Day Program and ICMCF would like to thank our past participants, their families and caregivers who entrusted us to care for their loves, and our partnering agencies including: A&D Home Health Care, Community Mental Health of Central Michigan, Region VII Area Agency on Aging, Saginaw Chippewa Indian Tribe, Isabella County Commission on Aging, Gratiot County Senior Services, Senior Services and Council on Aging for Clare County, and Veterans Administration.

Sincerely,

Alissa Haynak, LNHA
Adult Day Program Director
Administrator, ICMCF

Deb Nartker
Adult Day Program Manager
