Isabella County Medical Care Facility (ICMCF) COVID-19 Response

To our staff, residents, families and visitors;

As of today, 14 Isabella County Medical Care Facility residents have recovered from COVID and four are still recovering from the virus in our isolated unit. Our recovered residents are 30 days post diagnosis, not hospitalized and returned to baseline health status with no symptoms. All ICMCF COVID-positive residents remain in our care, and we have had no additional losses to the virus. Currently we do not have any staff members ill with positive COVID test results or related symptoms. We have had no additional positive cases among staff or residents since our update last week.

Thank you to our amazing staff and the continued support from the central Michigan community.

Sincerely,

Alissa Haynak, LNHA
Administrator

Amber Carll, RN
Director of Nursing
