Isabella County Medical Care Facility (ICMCF) COVID-19 Response

To our residents, families and visitors;

Today, we did have one resident test positive for the virus. This individual has been relocated to our COVID unit with dedicated staff. We continue to follow all CDC recommendation and infection control practices.

We are proud to announce an additional resident has recovered from COVID, and another resident will reach clinical recovery status tomorrow. Our recovered residents are 30 days post diagnosis, not hospitalized and returned to baseline health status with no symptoms. We do not have any staff members ill with positive COVID test results or related symptoms.

This means ICMCF totals as of tomorrow will be 16 recovered and 3 COVID positive residents on our dedicated unit.

We continue to pray for all residents, staff, and anyone affected by COVID 19.

We will be having our family parade on Thursday, May 21, 2020. Finalized details will be announced tomorrow. We look forward to seeing everyone. Thank you for your continued support.

Sincerely,

Alissa Haynak, LNHA
Administrator

Amber Carll, RN
Director of Nursing
